# QR Codes and Scavenger Hunts

## What are QR Codes?

### QR code

noun, trademark

plural noun: QR codes

a machine-readable code consisting of an array of black and white squares, typically used for storing URLs or other information for reading by the camera on a smartphone.

"they were the first retailer here to offer QR codes in their advertising"

1. Scan the code
2. Land someplace:  
Website  
Text Information  
Picture

**Google a QR Code Generator and bookmark the site - there are several that are easy to use.**

## Google Docs:

1. Free
2. Collaborative
3. Easy
4. Unique URL (which works really well for QR Codes)

**\*\* Create a folder in Drive to hold this project**

Develop a lesson plan with several questions that the students need to know/work/solve.

# ORGANIZE

A hand is visible on the right side of the slide, holding a thick blue horizontal line that spans across the middle of the slide.

In your Google Folder:

- Create a master document:
  - Each question you are going to ask
  - Each location that will be used
- Create a separate Google Doc:
  - For each location
  - For each question
- Create a QR Code:
  - For each location
  - For each question

# ORGANIZE

A hand is visible on the right side of the image, holding a thick blue horizontal line that spans across the width of the slide, positioned below the word 'ORGANIZE'.

**Get your Docs Ready:**

- Paste the next location QR Code under each question
- Print a QR Code for each location to start your groups
- Print your questions

**Hang your questions around your classroom/building**

- Have your students work in groups of 3-4
- Be sure your administrators know what is going on
- Print hall passes for your students if necessary

Make  
it  
fun...

**You can even make your questions multiple choice**

- **One QR Code leads to next location**
- **One QR Code leads to Principal's Office**
- **One QR Code leads to Your Desk**
