Using Social Media for PD

Scott Haselwood Oklahoma State University

What is Professional Development?

- Ongoing, intentional, systematic educational training opportunities available to educators in schools and districts (Guskey, 2000)
- Activities intended to increase the skills, knowledge or understanding of teachers, and their effectiveness in schools (Rhodes, Stokes, and Hampton, 2004)

How PD Happens

- Can be Formal
 - Occurs at a district level
 - Organized by department at each school
 - District brings in someone with desired expertise
 - Occurs in conferences
- Can be Informal
 - Educator seeks out PD in a less structured format.

Why Twitter?

- Informal
 - The educator is deciding what to learn
 - Not organized by a school/district
- No significant cost to participate
 - Need an internet connected device

Utilize Twitter

- Hashtags
 - # followed by a number/letter string
 - Groups all #'s with the same number/ letter string together
 - Real Time

Twitter Chats

- Organized around specific hashtags
 - Occur on specific days of the week at specific times
 - Led by a moderator
 - Moderator will post a series of questions using the specific hashtag
 - Participants respond to the questions with the specific hashtag
- Real Time

Edu-Friendly Hashtags

- #oklaed
- #tlap
- #mathchat
- #sschat
- #kidsdeserveit
- I teach ______ there is a chat for that

Teacher New Year's Resolution #2-- I will participate fully in all PD sessions, even if the activity is monotonous and/or demeaning.

What is a blog

- A place on the internet that you control
- Can be written, have music, pictures or other media
- Is regularly updated

Add New Post

Why you should blog:

- To reflect on your practice
- To share with other teachers what you are doing/have done
- Give a worldwide audience for your students
- Collaborate with other teachers on something you want to do
- Use your Voice

You created your blog - now what?

Just Write.

What to blog about?

- What you did this week with your class
- A problem you have solved in your classroom
- An upcoming lesson you want to improve
- New ideas you are thinking on
